The Libya Energy & Economic Summit is back for its second edition. The 2024 edition of this historic summit unites the entire energy sector together with other critical areas of the economy – with the goal of creating and sustaining

### **Partnerships for Energy and Economic Opportunity.**

All leaders and participants in energy, finance, mining, manufacturing, trading and other sectors – from Libya and around the world – are welcome. The Libya Energy & Economic Summit 2024 will build on the success of the inaugural edition in 2021, which was the first major investment event to take place in Tripoli for a decade.

### When?

13-14 January  
2024

### Why Libya?

Libya is a major global oil and gas producer, with capacity to contribute to European and African energy security. Historically, Libya has welcomed international companies and is now pushing for greater investment through partnerships across the economy.

### Why Now?

In 2023, the stability and growth of Libya's energy sector is more important than ever before. This results-oriented summit brings international government and private sector to the table to drive a growth agenda and get deals and partnerships signed.
